CAREER PROFILE

- *17 years development of mission-critical online & mobile company systems.*
- *My analytical thinking and solutions have led to huge time and financial savings for the Company.*
- *Proven experience to handle the projects alone, as a team-lead or as a member.*
- *The systems I've created have been in use from the past and continue to be used today.*
- *The one in charge to provide and/or execute solutions for unsolved project and development issues with other teams.*

SKILLS AND COMPETENCIES

- **Programming Languages & Frameworks:** .NET 8 C#, ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, Razor Pages, Blazor, Flutter/Dart, PHP, ASP.NET VB, VB6, Zend Framework
- **Database Technologies:** Microsoft SQL Server (MSSQL), PostgreSQL, MySQL, Oracle, Microsoft Access, T-SQL, Stored Procedures, SQL Functions, Relational Database Design, Database Normalization, Database Optimization, Database Management
- **Software Architecture & Development:** SOLID, OOP, OOD, TDD, N-Tier, SOA, System Architecture Design, SaaS, Asynchronous Programming, Multithreaded Programming, Mobile Application Development (iOS & Android), Cross-Platform Development, OWASP
- **Web Technologies:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, Responsive Web Design, Adaptive Web Design, Single-Page Applications (SPA), AJAX, JSON, XML, SEO, Cross-Browser Compatibility
- **APIs & Integration:** RESTful APIs, OpenAPI, Swagger, ASP.NET Web API, Web Services, RPC, OAuth 2.0, Payment Gateway Integrations, QR Code Generation, SSL Certificate Installation, NLog, Serilog
- **Data Access & ORM:** Entity Framework, Dapper, ADO.NET, LINQ, Lambda Expressions
- **Cloud, DevOps & Deployment:** Microsoft Azure, Azure App, Azure Functions, Windows Server, IIS, Apache, Azure DevOps, Git, SVN, Hangfire
- **Testing & Quality Assurance:** xUnit, NUnit, MSTest, Moq, FakeItEasy, Debugging, Troubleshooting
- **Mobile Development:** Flutter Flavors, Google Firebase, App Store Connect, Google Play Console

- **Development Tools:** Visual Studio Professional, Visual Studio Code, Android Studio, Xcode, NetBeans, Dreamweaver, Postman, JIRA, Ngrok, WinMerge, PuTTY, GitHub
- **Design & Analytics Tools:** Adobe Photoshop, Axure RP, Power BI, DaVinci Resolve, Microsoft Office, Microsoft Teams
- **Project & Business Skills:** Agile, Scrum, Waterfall, Project Management, Requirements Gathering, Business Analysis, Stakeholder Communication
- **Artificial Intelligence & Machine Learning:** GitHub Copilot, Gemini, Claude, Agentic Coding, Hermes, OpenClaw, ACP Client, vLLM, LM Studio, Llama.cpp, Opus, Qwen, Gemma, Nemotron, Microsoft ML

EMPLOYMENT RECORD

Russell A. Farrow Limited - Canada

Programmer/Analyst

February 2024 to October 2025

- **Leading the initiatives to enhance system security, stability, and testability, acting as the primary contributor in identifying risks, implementing safeguards, optimizing system performance, and updating codes to improve test coverage and maintainability.**
- Contributing to impactful projects by working across the full stack, including UX, API, and service layers.
- Developing new features that ensure high scalability and performance in the cloud.
- Writing clean, maintainable code with a focus on consistency and best practices.
- Designing and implementing database/entity schemas, along with deployment and migration scripts.
- Collaborating with team members on technical design, work estimation, and feature implementation involving data models, business processes, logic, and user interfaces.
- Identifying performance bottlenecks and assessing the impact of technical debt on the business.
- Participating in peer code reviews and working alongside talented engineers to improve quality, foster personal growth, and support team development.

True Yoga Pte. Ltd. - Singapore

Senior System Analyst

November 2015 to February 2023

- **Overall planning, development, deployment, and maintenance of successful complex system projects that digitalized/automated the operations with hundreds of millions of transactions and generated hundreds of millions of dollars annually.**
- Solid experience in back-end and front-end server technologies.
- Software support and maintenance of deployed products and solutions.
- Nurture a culture of high performance, stability, continuous improvement, creative problem-solving, and innovation within the department.

- Communicate and liaise with stakeholders on pre, and post-development and implementation to achieve business goals.
- Evaluate potential solutions and take necessary actions to resolve application issues and user queries.
- Review and coordinate with vendors regarding their proposed solutions, implementation of application patches, bug fixes and any necessary upgrades in accordance with OS/Software/Security policies.

Forecepts Pte. Ltd. - Singapore

Senior System Analyst

June 2011 to October 2015

- **The critical person-in-charge that handled, led & developed the company's biggest projects.**
- **Provide solutions and conduct actions to resolve development issues in my team and within other groups.**
- Overall pre-sale, planning, development, deployment, and maintenance of successful complex client system projects.
- Solid experience in back-end and front-end server technologies.
- Assess the complexity, scale, and timeline of prospect projects.
- Gather and translate the client's business requirements into technical specifications, documentation, UI mock-ups and prototypes.
- Managed a team of software engineers in Singapore and China, including task planning and code reviews.
- Evaluate the user experience design and recommend necessary amendments.
- Conducts performance and security testing.
- Nurture a culture of high performance, continuous improvement, creative problem-solving, and innovation within the team.

EDUCATIONAL BACKGROUND

Bachelor of Science in Computer Engineering

2002-2007

Bulacan State University
Malolos City, Bulacan Philippines

Bachelor in Industrial Technology (Computer)

1999-2002

Bulacan State University
Malolos City, Bulacan Philippines
